

PHISHING

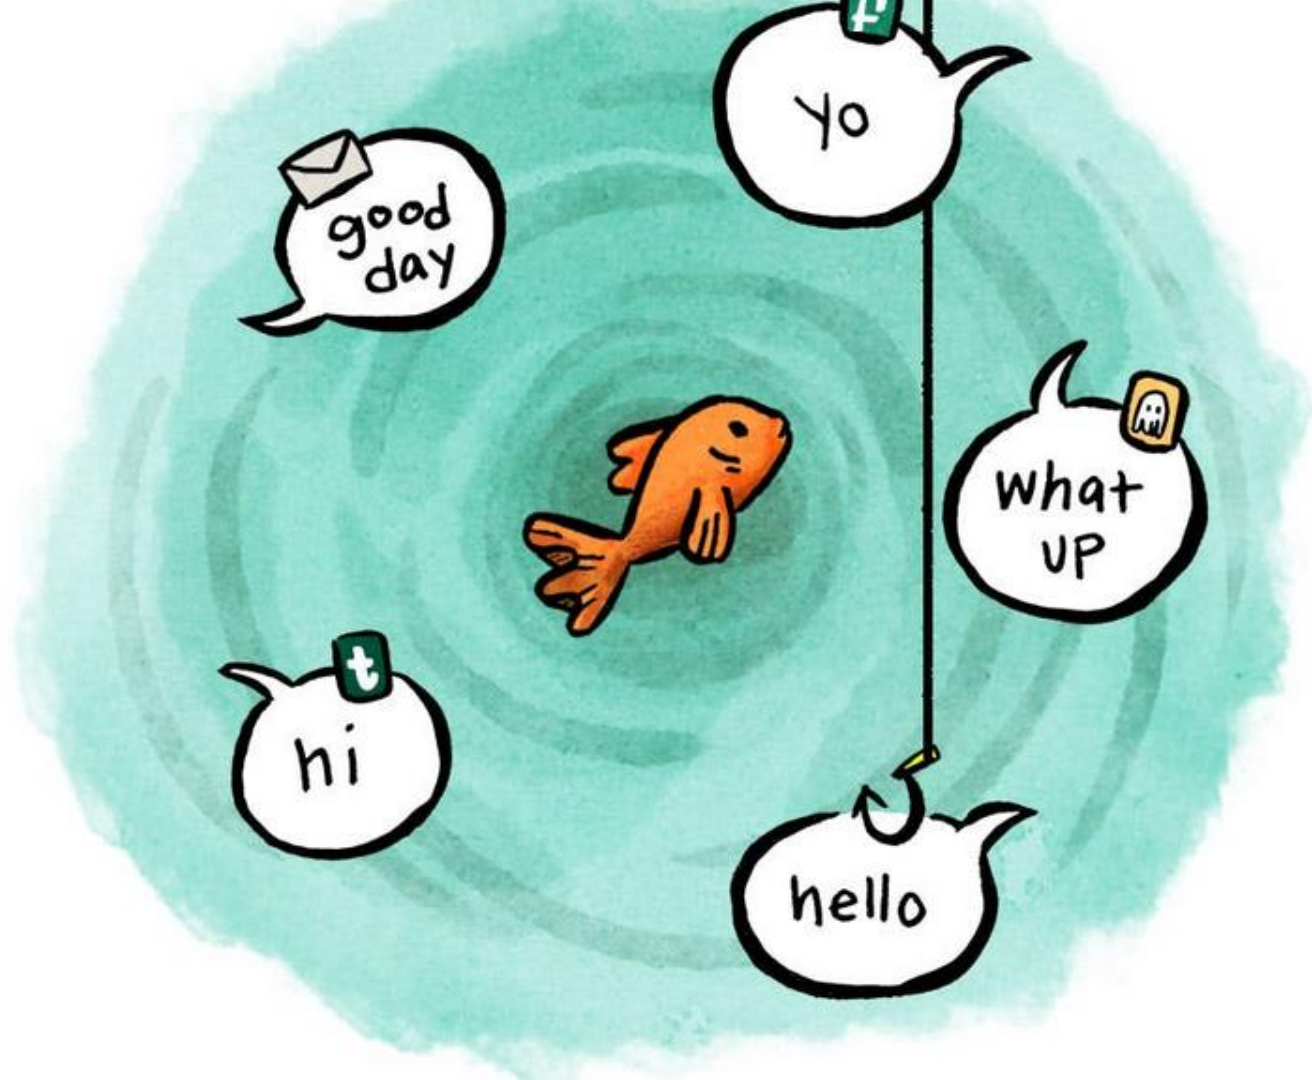

**Sådan snyder folk dine oplysninger
ud af dig på nettet**

Maia Lorentzen
DO:TOPIA

A diver in a black wetsuit and mask is underwater, holding a blue net. A small orange clownfish is visible inside the net. Bubbles are rising from the diver's breathing apparatus. The background is a blue, slightly hazy underwater environment.

HVAD ER PHISHING?

“ Phishing er et forsøg på at få fat i dine private oplysninger, som passwords, ved at sende elektroniske beskeder der skal narre dig.”

hi

hello

ARGH, MIN FACEBOOK ER HACKET!!!!

Søren Malmose

12 November at 16:41 · Copenhagen · 🧑

Der er lige nu en video fra mig som IKKE ER MIN. If you receive a video from me, it is NOT mine. Please report it to facebook. I cannot see it myself and I have no access to it!!

Hackere er nu på FB og skriver fornærmelser på dine venners væg. Og det er grimme fornærmelser, som ser ud til at komme fra dig. Du ser den ikke, men dine venner gør. Som et resultat af dette, sletter de dig fra sin liste over venner. Jeg vil bare sige : Får I noget, der er frastødende, grimt ,vulgært osv. er det ABSOLUT ikke fra mig !!!!!... Kopier og sæt på din status!

Det er ikke min video..det er falsk og virus... hvis I har modtaget en video fra mig.

Hvad skal jeg gøre, hvis jeg falder for phishingbeskeder på Facebook eller insta?

1. Skift password!

2. Bruger du samme password andre steder? Skift der også

3. Kontakt den ven, der har sendt dig beskeden. Deres konto er hacket og de skal også skifte password
